RE: Application for Quality Assurance / Software Testing Position

Dear Hiring Manager,

I am writing to express my strong interest in joining your team as a Quality Assurance Lead or Software Test Engineer. With over 7 years of robust experience in software testing, defect tracking, and engineering leadership across global IT environments, I bring a proven track record of ensuring high-level product quality and seamless delivery lifecycles.

Currently based in Vaasa, Finland, and pursuing my Master's degree in Project Management at Vaasa University of Applied Sciences, I combine my deep technical expertise in manual testing, Agile frameworks, and test strategy execution with modern project governance principles. Throughout my career at prominent firms such as Experion Technologies, Quest Global, and UST, I have successfully led QA teams, built comprehensive test plans, and aligned technical deliverables with business goals.

I am eager to contribute my meticulous testing methodologies, collaborative spirit, and dedication to excellence to your organization. Thank you for considering my application, and I look forward to discussing how my background aligns with your team's objectives.

Sincerely,

Greeshma Sheeja Sajeevan
