- Team Building
- Problem-Solving

Languages

- English (Fluent)
- Finnish (Learning)

PROFESSIONAL SUMMARY

Results-driven Quality Assurance Lead and Master's student in Project Management at Vaasa University of Applied Sciences with over 7 years of software testing and engineering leadership experience across global IT firms. Proven track record in test design, team management, defect tracking, and end-to-end quality assurance. Highly skilled in manual testing, test strategy execution, Agile/Scrum methodologies, and cross-functional team coordination. Seeking opportunities in software testing, project coordination, or campus support operations.

PROFESSIONAL EXPERIENCE

Test Lead

Oct 2025 - Apr 2026

[Experion Technologies \(India\) Pvt. Ltd. | Trivandrum, Kerala, India](#)

- Led QA planning, test design, and execution across end-to-end software development lifecycles.
- Coordinated cross-functional teams to align quality standards with client project milestones.

Lead Engineer / Deputy QA Lead

Sep 2022 - Aug 2023

[Quest Global Engineering Services | Bangalore, India](#)

- Managed testing teams, prepared comprehensive test strategies, and minimized product defect rates.
- Communicated directly with key technical stakeholders to report quality metrics and delivery timelines.
- Implemented Test Driven Development practices, analyzed requirements, designed test cases, and developed ATF scripts.
- Developed and maintained traceability matrixes linking requirements to test cases and performed Unit, Integration, Sub System, and Regression Testing.

Tester II - Software Testing

Nov 2015 - Aug 2022

[UST \(US Technology International\) | Trivandrum, India](#)

- Performed extensive functional, integration, regression, and web services testing for enterprise healthcare and cloud platforms.
- Authored detailed test cases, logged software anomalies in JIRA/HP Quality Center, and collaborated with developers on root cause analysis and bug fixes.
- Tested and validated HealthEdge, HRP UI, and EDA 270/271, 276/277 request-response files across Patient Management, Doctor, Admin, and Insurance Claims modules.
- Conducted manual and exploratory testing for web applications, maintaining detailed bug logs and tracking severity and priority.
- Executed hardware validation and IoT application testing on mobile platforms.
